

# ONE SYMPTOM OF COVID IS THE URGE FOR FINANCIAL FREEDOM

*An opportunity to start your own business with little risk and a high probability of great reward.*

As the pandemic spreads again, people across the country are rethinking their priorities. Millions are quitting their jobs, changing careers, and looking for opportunities for more freedom.

One such opportunity that promises to provide financial freedom is a WeFixIt Garage Door franchise, launches this month by a woman-owned company out of North Carolina.

“This is a mobile, home based business that allows you to work from a truck or van handling nearly all business from an app on your phone,” says Jen Katzir who owns WeFixIt with her husband Omer. “Any office support will be able to work remotely from their home, cutting down your overhead expenses. In most states, you do not need a specific license.”

WeFixIt opened their first branch location in Wilmington, NC in October 2019 and within one year that branch made \$260,391 in sales. Since 2018 their sales have gone from \$400,000 to nearly \$1.5 million in 2020 and a projected \$2 million this year. This is a huge industry with massive potential, and franchising with WeFixIt will allow you to take control of your own destiny.

With an initial investment of as little as \$36,000 (including the franchise fee!), franchisees can own their own business and be their own boss, which many are seeing the value of during the pandemic.

Anyone who signs a franchise agreement with WeFixIt Garage Door & Gate in the month of September will get half off their franchise fee. The fee will be \$9,950 instead of the regular \$19,900.

Even if you are not looking to start your own business, you can still benefit from this franchise launch. Anyone is eligible to receive a referral bonus of \$2,000. See website for details - [www.wefixitgd.com/franchise](http://www.wefixitgd.com/franchise)

Those interested can contact Joseph at 305-592-9229.
